Endelig kom sommeren med noget varme, grønt græs, føl og dyrskuer. Der er ikke kommet helt det vanlige salg i ponyer, men krisen aflyses vel heller ikke fra den ene dag til den anden.

I fredags var jeg til Roskilde – det var en dejlig oplevelse. Der mødte jeg også “ponyen med knappen under maven”.

Jeg har også fået en mail med nogle dejlige fotos fra England – tak for det. De billeder lader jeg være optakten til næsten blad. Jeg har nemlig bestilt billetter til England, så en veninde og jeg kan komme til The National Breed Show for British Spotted Ponies. Jeg glæder mig. Det er 14 år siden jeg sidst så dette skue.

Det er muligt, at jeg bliver en smule ustabil i min korrespondance senere på denne måned, det skyldes, at jeg arbejdsmæssigt skal en tur til Afrika for at undervise (2½ uge).

Bladet her ligger nu på nettet. Det kan frit downloades fra min hjemmeside: [www.knabstrupper-bog.dk](http://www.knabstrupper-bog.dk) eller fra den hollandske appaloosa forenings hjemmeside. Jeg har endnu ikke set, om siden er blevet opdateret, men de har spurgt om de måtte bringe avisen.

Jeg håber dog alligevel, at I vil blive ved med at sende mails med gode ideer, små historier og lignende. Uden den kontakt med læserne vil det blive dødt at skrive bladet. I er også meget velkomne til at sende flere fotos af jeres føl.

De bedste sommerønsker

Merete Norring, Danmark, den 9. juni 2010.

*At last the summer came with a bit of sunshine, green grass, foals and shows. It is not as easy to sell ponies as it used to be. I suppose a crisis doesn't die from one day to the next.*

*Last Friday I went to Roskilde (in Denmark) to see the big show – and it was lovely. There I met the “pony with the button under the stomach”*

*I have got a mail from England with some lovely photos – thank you very much. Take it as a taste on the next magazine. I have bought tickets to UK, and a girlfriend and I plan to go to the National Breed Show arranged by the British Spotted Pony Society. I'm trilled. I last went there 14 years ago.*

*If you find it a bit difficult to catch me by mail this month and in the beginning of next month, you are most likely right. I'm going by work to Africa to teach for 2½ weeks.*

*Now you can find this magazine on the internet. People can download it for free from my homepage: [www.knabstrupper-bog.dk](http://www.knabstrupper-bog.dk) or from the Dutch appaloosa society's homepage. I haven't seen if they have made the update yet, but they have asked and got the permission.*

*I hope you will keep sending mail with good ideas, new, small stories and so on. If I don't have contact with the readers it'll be a dead feeling to make it. Also I would love to have more foal photos.*

*With the best wishes for the summer*

*Merete Norring, Denmark, on the 9th of June 2010.*

Dyrskue traditionen i Danmark er temmelig gammel. Der kom rigtig gang i det efter 1852, idet der blev vedtaget en lov om husdyrpræmier. Der var ikke mere kongelige stutterier ogavl, og derfor var det nødvendigt at fremavle kvalitet både til landbruget og til krig (det var lige efter 1. slesvigerkrig) på anden vis.

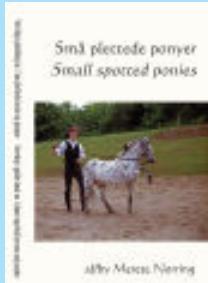

Der blev derfor vedtaget en lov om statsfinansierede præmier til de bedste. Det var vel at mærke præmier af en betydelige størrelse. Præmierne gjaldt ikke kun heste, men f.eks. også tyre.

Præmie tilskuddet er med årene forsvundet, men der er stadig en tradition for at udstille dyr (heste, køer, grise, geder, får, fjerkære mm) til skuer rundt omkring i landet. På Sjælland er der kun et skue tilbage, og det ligger traditionen tro i den første weekend i juni. Det varer 3 dage og starter om fredagen. Alle med bopæl på Sjælland kan udstille dyr, som opfylder afstamningskravene. Mange byboere kommer til skuet, som er det årlige møde mellem land og by.

*The show tradition in Denmark is quite old. It really began after 1852, when a law about prizes to the best farming animals were passed. At that time there were no more Royal studs and it was necessary to prize quality both for the agriculture purpose and to use in war (it was just after the first Sleswig War).*

*By law it was decided that the state gave prizes to the best animals. At that time the prizes were big. Not only horses, but i.e. bulls too could be prized.*

*The prizes from the state do not exist anymore, but we still have a tradition for showing animals (horses, pigs, goats, sheep, poverty and so on) to different show. On the island of Sealand there is only one show left and it is held in the first weekend in June. The show last 3 days and begins at Friday. Everybody who lives in Sealand can show animals with enough pedigree. It is important days and for many children from the cities. It is their only chance to meet the countryside and the alive animals.*

## 6 Ponyen med knappen under maven

*The pony with the button under the stomach*

Majco's Equus Maximus med kælenavnet "Maxi" viser sammen med sin ejer og bedste ven, Henriette Bendorff de tricks, som de har øvet. Børnene elskede det, og der blev taget mange fotos.

*Majco's Equus Maximus with the stable name "Maxi" and his owner and best friend, Henriette Bendorff are showing his tricks. The children loved it and lots of photos were taken.*

Da jeg var til Roskilde dyrskue kom en af foreningens ponymedlemmer hen til mig. Det var Henriette Bendorff, som jeg har kendt en del år. Det vil sige, at man kender jo ofte ikke hinanden en helt masse, men mødes nogle gange om året og hygger sig med sin fælles interesse.

*When I visited the show in Roskilde, I met with one of the members of the breed society. Her name is Henriette Bendorff, and we have known each other for many years. Well often you don't know each other an awful lot, but we meet from time to time and have a good time cause we are interested in the same kind of breed.*

## Ponyen med knappen under maven

7

Efter at vi har snakket en del om køresporten og set Koier spænde et ute af heste for den ene mere pompøse vogn efter den anden, spurgte Henriette pludselig om jeg ville tage nogle billeder for hende. Hun har lært sin ponyhingst, Maxi (med det rigtige navn Majco's Equus Maximus) nogle tricks.

Vi gik derfor op på et lille stykke græs – ikke at det var uforstyrret, der er optaget overalt på dyrskuepladsen.

Maxi viste mig spanske skridt, og bagefter viste han, at han har en knap under maven. Når Henriette trykker ham der, så lægger han sig ned – og han hygger sig med det.

Han kan også sidde og give hov.

Henriette fortalte, at det hele startede med, at hun havde trykket/rørt ham under maven. Så lagde han sig til hendes store overraskelse ned. Så var begyndelsen til numrene lagt.

Mens Henriette og jeg var optaget af numrene, Maxi og jeg af at fotografere, var der kommet tilskuere til. Børn pegede af Maxi og ville røre ham, nogle klappede og fra Brogårdens stand kom man med en pose godbidder som tak for opvisningen.

## The pony with the button under the stomach

After having talked a lot about driving and seen Mr. Koier and his helpful staff getting a lot of wonderful horses in front of even more wonderful carriages, suddenly Henriette asked me, if I would take some photos of her pony. She has learned her stallion called "Maxi" (with the proper name Majco's Equus Maximus) some tricks.

We found a small piece of grass – it wasn't calm. It is full of people all over the show ground.

Maxi showed Spanish walk and after that he showed, that he has a button under his stomach. When Henriette push gently there, he lay down – and he enjoys it.

Also he can sit down and show his hoof like saying hallo.

Henriette told me, that it began one day by coincident, when she touched/ pushed him under his stomach. She was very surprised when he lay down. After that they began to learn tricks.

When Henriette and I were busy talking, looking at the tricks, Maxi and I to take photos as well, more people came to see it. Children were pointing at Maxi and wanted to touch him, some applauded and a lady from one of the small feed shops came with a bag of feed and said thank you for the show.
